Description: This is a white plastic gate that fits between doorways 28" to 36" wide. The gate has a

one-hand, push-and-lift operation that swings open a half-door. The gate prevents little wonderers from wondering into dangerous or unsafe areas, but the easy-to-open door makes it easy for parents to pass through.

Fisher Control Valves, known for performance and reliability The control valve is a critical part of the control loop. The control valve manipulates a flowing fluid, such as gas, steam, water, or chemical compounds to compensate for the load disturbance and keeps the regulated process variable as close as possible to the desired set point.
