Install Firefox Add-ons Manually. This is another easy task, which will let you install Firefox add-ons manually. However, you need the .XPI file. XPI extension is the Firefox add-on's raw file extension. After writing the code, you will need to save it as a .xpi file to get it uploaded to Firefox add-on gallery.

How to Install Firefox Add-ons Manually on Windows

In overlay extensions, a lot of the work, ie XUL overlays etc are handled NATIVELY by the application (ie Firefox). In a bootstrapped extension, all above work is left to the extension developer which often involves manually adding many event-listeners and observers to achieve the same (which could be not as native as the applications core).
