This new and fully revised Fifth Edition of Fiber Optic Communications incorporates coverage of significant advances made in the fiber industry in recent years to present a comprehensive and in-depth introduction to the basics of communicating with optical fiber transmission lines.

Fiber Optic Communications (5th Edition): Joseph C. Palais ...

Fiber optic communications developed very quickly after the first low-loss fibers were produced in 1970. Operational fiber systems are now common, and new installations and applications appear continually. Communication by fibers has taken over many of the functions previously performed by copper-based systems and extended them significantly.

Fourth Edition - Arizona State University
