where $(\psi_k)'$ are specified values. Which parameters are fixed, and the levels of the specified values can depend on accounting choices. For example, ψ_2 can be the level of a publicly visible cost which the firm has committed to at date 1, but which is not incurred until date 2. An investor who does not attend neglects the cost and sets $\psi_2 = (\psi_2)' = 0$.

Limited attention, information disclosure, and financial ...

The financial crisis of 2007–2008, also known as the global financial crisis and the 2008 financial crisis, is considered by many economists to have been the most serious financial crisis since the Great Depression of the 1930s.. It began in 2007 with a crisis in the subprime mortgage market in the United States, and developed into a full-blown international banking crisis with the collapse ...
