The Flite Test Edge is based on the Zivko Edge 540 V3, which is a great aerobatic plane and also a very popular choice for pilots competing in the Red Bull Air Races. The FT Edge captures the crisp lines of the real Edge while offering a wide flight envelope capable of doing anything from smooth pattern flying to extreme aerobatic maneuvers.

FT 3D WINGS - Flite Test

Flitetest design several RC airplane models with freely available plans built from Dollar Tree foam board, which is designed to be built quickly and cheaply. You can order laser-cut kits from the Flite Test store for about \$30, or laser cut your own using the Lasersaur at the space for about \$5 in materials and laser time.

Flitetest Planes - Dallas Makerspace

If youre an avid builder/flyer as I am, one thing I might suggest is when youre making the plans for a plane youve never made before, cut the plans onto posterboard, then, after you crash, you can take the posterboard out again and trace another plane. Never have to deal with the printing again - ive got like 20 designs in hardcopy posterboard ...
