A spreadsheet is an interactive computer application for organization, analysis and storage of data in tabular form. Spreadsheets developed as computerized analogs of paper accounting worksheets. The program operates on data entered in cells of a table. Each cell may contain either numeric or text data, or the results of formulas that automatically calculate and display a value based on the ...

21 11 2017 at 7:11 am [...] From figure 1, the intercept of y_1 and y_2 is approximately (2.4, 4.8). By using simultaneous equations, we can work out the exact value of the intercept, which is interesting as the intercept is the point at which the force applied to the materials results in them having the exact same deformation.
