I am looking at an 806 Farmall that has the old long skinny engine oil cooler and the seperate dipstick and filler cap for the engine oil. The tractor serial number is 20981 which according to tractor data.com makes it a 1965. About what year production was the oil cooler and dipstick changed ove...

There are still many 806's in the country side to this day that can be seen around - almost 50 years later! From what I've read, (the diesels), there was an engine change (360 vs 407), about a 10 hp increase between the two, and the 856 appears to be a bit heavier. There were probably a few more other differences (not sure what they were?)

**806 vs 856 - General IH - Red Power Magazine Community**

International 806 for parts. Has nearly complete engine and rear end. The engine has been ran, but,

it ran poorly and will need some work. Most parts for this tractor model are available through our store. Call for pricing. Please be wary that if you want this whole unit freight can easily reach ...

The International Harvester 806 Tractor first came out at a price of \$6,800 (1967), but you might be one of the lucky ones who found a good deal lower than that. The bad news is that, like any other tractor, the International Harvester 806 Tractor needs spare parts to keep it running; the good news is that we have all the parts you need at 60% ...

What is the issue with the old style engine block that were in the farmall 806 diesel, someone was telling me they cracked and it was due to the fact of it having or not having cooler jets for the liners. What causes this to happen and or is it something a guy like me should worry about if buying a 806 diesel.
