My fisher and paykel paprika oven seems to heat too high (oven itself) to the point where I can't even cook anything without burning the top before the centre is cooked. It's driving me crazy. Whats wrong...

SOLVED: I have a Fisher and Paykel Paprika oven and have ...

I've got a Fisher & Paykel Paprika Oven and one element in the front and one in the back can't be regulated. It's in one of our rental properties and the tenants says he's seen this before and it's not the element itself but something with the buttons. Can you please help. Thank you. Tamara

I've got a Fisher & Paykel Paprika Oven and one element in ...

Fisher and Paykel Oven, Oven elements work fine and warmer drawer. Unfortunately the 4 top elements all go on full hot when turned any one of them on low. They are either off or full hot? Is this a controller problem and where is the controller? as i can only see the switch to turn low to high for the element and this goes to the element itself?

SOLVED: Fisher and Paykel Paprika Oven Top ... - Fixya

Thank you for buying a Fisher & Paykel freestanding range. Now that it is installed and ready to use, you will want to know everything about it to ensure excellent results right from the ... oven floor as this will cause a heat build-up which irreversibly damages the enamel.

User guide NZ - Fisher & Paykel US

Oven controls. Select the function using the function knob. The oven lights will come on. Select the temperature using the temperature control knob. The oven temperature indicator light, above the temperature knob on the control panel, will glow until the oven has reached the set temperature, and then it will go out.
