(By the way, if you're interesting in TP programming, please check out the book I wrote on programming FANUC robots. UFRAMEs and UTOOLS One of the great things about FANUC's TP programming language is that just about anyone, with very little training, can pick up a teach pendant, write a few lines of code and get their robot moving.

FANUC Robot Programming - ONE Robotics Company

This course covers basic operations of FANUC Robots, using the teach pendant as the main

interface point. This course is geared toward providing Operators the introductory knowledge to interact with the robot. Course Code: J2P0305. Course Objectives: Students successfully completing this course will be able to: Navigate the teach pendant menus

FANUC America

The FANUC teach pendant is a hand-held device used to interact, program, and problem solve the robot and, in most cases, an essential part of a robot system. While there are other ways to program a robot, the teach pendant allows the operator to move around and watch the robot movement more closely and not have to be at a fixed terminal.
